

Govind Swarup Memorial Lecture - 2024

Radio imaging and its cousins

An early theme in Govind Swarup's work was reconstruction of a solar image from projections. More broadly, there are commonalities as well as contrasts between radio imaging, medical imaging, and the mapping of atomic positions in crystals, which will be explored in this talk.

Venue: NCRA Auditorium

Time : 16:00 IST (10:30 UT), 22 March 2024

Speaker : Prof. R. Nityananda

Astrophysicist, ICTS-TIFR
